Denture, Removable Partial Denture and Transitional Appliance

- Brush appliance teeth with denture paste, or with mild detergent and water. **Do not use toothpaste.**
- To soak, place appliance in a cup with denture tablet or powder and water. After 15 to 20 minutes, rinse the transitional appliance well.
- Appliance can be stored in a cup or retainer case and a small amount of mouth wash, if desired. **(DO NOT store transitional appliance in retainer case submersed in water.)**
